

16th National Leadership Retreat

Resolutions

1. To fast-track construction of basic infrastructure to locally avail services for Rwandans in their communities.
2. To evaluate the performance of government shares in various companies and explore measures to increase profitability.
3. To examine and put in place measures aimed at addressing challenges that impede the implementation of Made in Rwanda Policy.
4. To increase efforts for agricultural productivity focusing on:
 - Extension services;
 - Competitiveness of locally produced products including the issue of taxes and fees;
 - Research and development on crops and plant varieties;
 - Reduce agricultural imports especially for commodities that could be produced locally;
 - Facilitate private sector regarding investment opportunities particularly in the production of raw materials for industries.
5. To increase the capacity utilisation of milk collection centers and partner with the private sector to identify market opportunities including schools.
6. To exploit underutilized irrigated land leveraging efforts of young agricultural professionals while improving land use planning and settlement.

7. Strengthen programs to improve the quality of education focusing on:
 - Construction of more classrooms to reduce overcrowding;
 - Recruitment of more qualified teachers for primary and secondary schools;
 - Regular update of education curricula
 - Revamp the school feeding program.
8. To hold accountable school leaders and other concerned officials involved in mismanagement and embezzlement of school resources.
9. To expedite development of new strategies for financial sustainability of the Community Based Health Insurance (CBHI/ Mutuelle de Santé).
10. To address constraints hindering the quality of health services including:
 - Quality of training for medical professionals ,
 - Strategies to incentivise medical professionals and
 - Review electricity and water tariffs in health facilities.
